

UTCA Construction Safety Seminar

OSHA Confined Space Safety Seminar

Saturday, March 5, 2011

7:30am - Registration & Continental Breakfast

7:45am - 12:00 Noon - Seminar Program

UTCA has scheduled a Saturday morning seminar on March 5, 2011 for your employees regarding OSHA Confined Space regulations. This session will educate your staff concerning the requirements for working in confined spaces. Employers are increasingly being fined by OSHA for violating 1926.21(b)(6) which states, "All employees required to enter into confined spaces shall be instructed as to the nature of the hazards involved, necessary precautions to be taken when entering and in the use of protective equipment and emergency equipment required." **The OSHA Confined Space Seminar is mandatory for any persons entering a confined space.** OSHA considers manholes, pipelines, utility vaults, tanks and trenches as confined spaces.

The registration fee for this seminar is \$80.00 per person. Those who complete the seminar will receive a wallet size certificate of attendance for their use. This certificate serves as evidence of confined space training with OSHA. The seminar will include a continental breakfast. This program will be held at the UTCA Conference Center in Manasquan, New Jersey. Directions to UTCA can be obtained on the association website at www.utcanj.org.

For those who may have completed this training, it is recommended that the seminar be repeated every three years.

Please contact Dan Neville at (732) 292-4300 with any questions you may have regarding this seminar.

***The UTCA Conference Center is located at:
2310 Highway 34, Manasquan, NJ 08736***

UTCA Construction Safety Seminar

Comprehensive Construction Safety Seminar

Friday, March 4, 2011

8:00A.M. - Registration & Continental Breakfast

8:30 A.M. – 10:30 A.M. Seminar Program

Be the First to See the New "app" for GPS Accurate Excavation Location & Learn Where OSHA Will Focus Its Enforcement Efforts!

Our Association's Safety Committee continues to focus on construction safety issues important to member firms. We are pleased to offer the Annual Comprehensive Construction Safety Seminar for **owners, office staff, safety directors, field supervisors and construction insurance representatives**. This seminar will cover a range of topics related to safety and health in the construction industry. **This seminar is a must for all company personnel who have any responsibility for safety.**

Last year, members who attended the UTCA Comprehensive Seminar learned that the new Obama Administration's focus for OSHA was to start stressing a strict enforcement policy. The UTCA and the OSHA New Jersey Area Directors are determined to continue the mutual cooperation and partnerships created through the years. To achieve this goal the UTCA is happy to bring back the New Jersey OSHA Area Directors Panel. Since our last panel discussion there are three new Area Directors. The Area Directors will take questions and discuss new policies, Local Emphasis Programs and recent rules/directives that affect the Construction Industry.

We are honored to have **Robert Kulick, the Administrator for OSHA's Region II**, presenting the OSHA update—*News from Washington*. The news and policy updates from this meeting will affect your company and you must have representatives present.

UTCA is an active member in the New Jersey Common Ground Alliance and is pleased to have from the NJ CGA, Andres Roda, P.E. Research Manager for Center for Advanced Infrastructure & Transportation (CAIT) at Rutgers University, who is presenting on a project that incorporates **GPS Technology** to enhance **One-Call Damage Prevention** in New Jersey. Andres will demonstrate a new "app" for a mobile device that will enable the excavator to precisely define the area using GPS. Other applications for this technology may be discussed such as using it to define excavations during initial site visits prior to bidding a project.

Please review the enclosed Seminar program outline and utilize the Response Form for your firm's attendees. If you have any questions regarding this seminar please contact Dan Neville at (732) 292-4300.

Annual Comprehensive Construction Safety Seminar

March 4, 2011
