

UTCA Construction Safety Seminar

CPR/First Aid/AED Certification Seminar

Saturday, February 20, 2010

7:45am Registration & Continental Breakfast

8:00am - 3:00pm - Seminar Program

UTCA has scheduled a Saturday Seminar for February 20, 2010 for your field personnel and management regarding CPR/First Aid/AED certification. This seminar will give the knowledge and skills necessary to recognize and provide basic care for injuries and sudden illnesses, including how to use an automated external defibrillator (AED) for victims of sudden cardiac arrest, until advanced medical personnel arrive and take over. The automated external defibrillator training is an excellent asset to any jobsite.

First Aid and CPR training have proven to be extremely useful in preventing severe permanent injury and death resulting from workplace accidents. **The Occupational Safety and Health Administration mandates that, “A person who has a valid certificate in first-aid training be available at the worksite to render first aid in the absence of reasonably accessible medical doctors in terms of time and distance to the worksite”.**

It is strongly recommended that new employees, as well as experienced management, attend this class. The registration fee for this seminar is \$100 per person. Attendees will receive a CPR/AED Certificate, valid for one year, and a First Aid Certificate which is valid for three years. The seminar will be held at the UTCA Conference Center in Manasquan, New Jersey.

Please contact Dan Neville at the UTCA office should you have any questions relative to this seminar program. Directions to the class location are available at: www.utcanj.org

The UTCA Conference Center is located at:

***2310 Highway 34
Manasquan, NJ 08736***
