UTCA Traffic Control Coordinator Seminar

January 11-14, 2011

UTCA Office - Wall, NJ

8:00am - Registration & Continental Breakfast

8:30am - 4:00pm - Seminar Program

UTCA, in conjunction with the Center for Advanced Infrastructure & Transportation/NJ Local Technical Assistance Program (CAIT-NJLTAP) at Rutgers University, has scheduled a four-day certification program for experienced highway work zone personnel who seek to obtain the certification for Traffic Control Coordinator (TCC) as currently required by the NJDOT, and anticipated beginning 2011, by the NJ Turnpike Authority. NJDOT, NJ Turnpike and other agencies require a contractor to assign a supervisory-level employee with requisite onsite experience to act as the Traffic Control Coordinator on roadway construction projects. Participants who successfully complete this course (and the prerequisites) will be eligible to serve as a TCC with supervisory and coordinating roles.

The course material is developed around typical roadwork that occurs on any state roadway, whether two lanes or multi-lane Interstates. The training covers the standard work zone protection as specified in the Manual of Uniform Traffic Control Devices (MUTCD). Sessions on OSHA, NJDOT, NJTA and state police relationships and work zone traffic control liability issues are included.

In order to be qualified to attend the TTC certification Seminar, you must:

1. Show proof of a completed Rutgers NJ LTAP Work Zone Safety Awareness Program or approved Flagger Training Workshop.

(A flagger certification or completion of any UTCA ATSSA Flagger Course will satisfy this requirement). A UTCAATSSA Flagger Course is available on January 8th for those who have not yet completed this course.

and;

2. Proof of 4,000 hours (100 weeks) field experience in highway work zones.

(A letter from past and/or present employer on employment verification will meet this requirement).

The information regarding prequalification must be received and evaluated *BEFORE* the start of the January class. This course is open to UTCA contractor member employees only. The course fee of \$395 includes: Registration, Continental Breakfast, Exam, Certificate of Completion, and Wallet Certification Card. A permanent record of the course is maintained by the CIAT-NJLTAP office at Rutgers University. Certificates and wallet cards will not be issued to students, if course fees are delinquent and/or any course prerequisites have not been fulfilled.

This seminar will be held at the UTCA Conference Center in Manasquan, New Jersey. Directions to UTCA can be obtained on the association website at www.utcanj.org.

Please contact Dan Neville at (732) 292-4300 with any questions you may have regarding this seminar.
