

UTCA Announces

ITS

Website Design Group Program

Due to the rapid advancements being made in computer technology, website-use and association member requests, the association is pleased to announce a new group program for website development and design. UTCA has selected the firm "Conquer The Web" to administer this program at a discounted rate for all members. The company offers website development and hosting as well as Internet Service and DSL's

On the reverse side of this form is a price schedule for three standard websites available to UTCA members. The firm will also custom design a website to suit the needs of an individual member as well. As you will see on the form, the association has negotiated excellent group rates.

Anyone interested in learning more about this discounted program should complete this Response Form and fax it to the UTCA office at (732) 905-4951. If you have any questions about this program contact Michael DeVito at the association office.
